Digital History

January 30/ February 1

What is history?

What values do historians share?

*Hint Cronon reading

So what is DIGITAL history?

What are some advantages?

What about negatives?

Our working definition will be

Historical approach of examining and representing the past that uses tools and technologies of the internet and computers. It allows us to ask and answer questions about the past so that we gain insights about the ideas and realities that shaped the experiences of those who lived in the past.

What types exist?

- There are PHASES of digital history
- Phase 1: Communication
- Phase 2: Hands on websites
- Phase 3: Publishing, Collaborating, Interpretation
- Phase 4: 3D simulations and recreations.

A Day in Pompeii

So let's discuss the projects!
